DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 26-28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hench in view of Roe et al.

Hench shows a tank 10, mixing chamber 40, air delivery system 140, liquid delivery system 150 and flow controller 200. Hench lacks dispensing a foam and a mixing media. Roe et al show a foam dispenser having a mixing media 30 to dispense a high quality foam (column 3, lines 34-36). It would have been obvious to one of ordinary skill in the art to have modified the Hench sprayer with a mixing media to dispense foam as taught by Roe et al to dispense a high quality foam.

Allowable Subject Matter

Claims 1-25 are allowed.
